Untreated wood gets its unique character due to the naturalness. Colour or structure variations from the samples shown are standard and have to be accepted. The wood will get a desired patina overtime with daily use, which emphasizes the character of the wood. For further care please notice the general wood information. Puttied areas may have a different colour appearance depending on the surface. For example, dark putty can look lighter on untreated wood.

\* = Available on request against processing surcharge

✓ = Bullfrog recommendation and standard surface

∅ = These variants are not available

Each piece of furniture is handmade and unique. Deviations to the listed measurements may be caused by:  
 1. different upholstery materials (fabric, leather), 2. processing of ticking mats, 3. the pressure to combine individual parts, etc.  
 The seat comfort of a sofa type with larger seat depth usually differs from one with lower depth.
